Soft - Souple

Rigido
Stiff - Rigide

Tessuto stretch Dune 350 gr/mq
Stretch dune fabric - Tissu stretch dune

3% elastan
97% poliestere

h. 23 cm

Il materasso Memory Trilogy offre un ottimo supporto ortopedico grazie alla sua lastra interna suddivisa in 3 strati che lo rendono maggiormente flessibile: la base rigida e quella elastica infatti, si bilanciano nella progressiva distribuzione del peso e, grazie all'elevato spessore dello strato superficiale in Memory Soft Touch, permettono un graduale rilassamento della colonna vertebrale e un senso di leggerezza davvero apprezzabile. La fodera in tessuto d'arredo permette inoltre un ottimale scambio di umidità con l'esterno lasciando una gradevole sensazione di sonno fresco e pulito.

The Memory Trilogy mattress provides excellent orthopaedic support thanks to its internal sheet divided into 3 layers that make it more flexible: the rigid and elastic bases do in fact balance one another in the progressive distribution of weight and, thanks to the extra thickness of the surface layer in Memory Soft Touch, they ensure the gradual relaxation of the spine and a truly appreciable sense of lightness. The fabric lining also permits optimal exchange of moisture with the outside leaving a pleasant feeling of freshness and cleanliness.

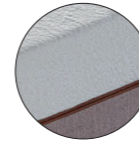

Le matelas Memory Trilogy offre un excellent soutien orthopédique grâce à sa plaque interne divisée en 3 couches qui le rendent encore plus souple: la base rigide et la base élastique s'équilibrent, en effet, en répartissant progressivement le poids et permettent une relaxation progressive de la colonne vertébrale tout en offrant une sensation de légèreté vraiment appréciable grâce à l'épaisseur élevée de la couche superficielle en mousse Memory Soft Touch. La housse en tissu d'ameublement permet en outre un échange d'humidité optimal avec l'extérieur en laissant une sensation de sommeil frais et sain.
